

The Unit

Replace USD, Unite Crypto

USD Inflation

Crypto is a Whole New Era.

USD is centralized and no longer a good measure of value.

The Unit—Prepared for the New Era

We need an unbiased, decentralized unit of value.

The Unit creates a Unit of Account
based on a Decentralized Crypto Index.

What is The Unit?

The Unit is a set of cryptocurrencies coming from **Open Selection Criteria** and glued together through an **Open Algorithm**.

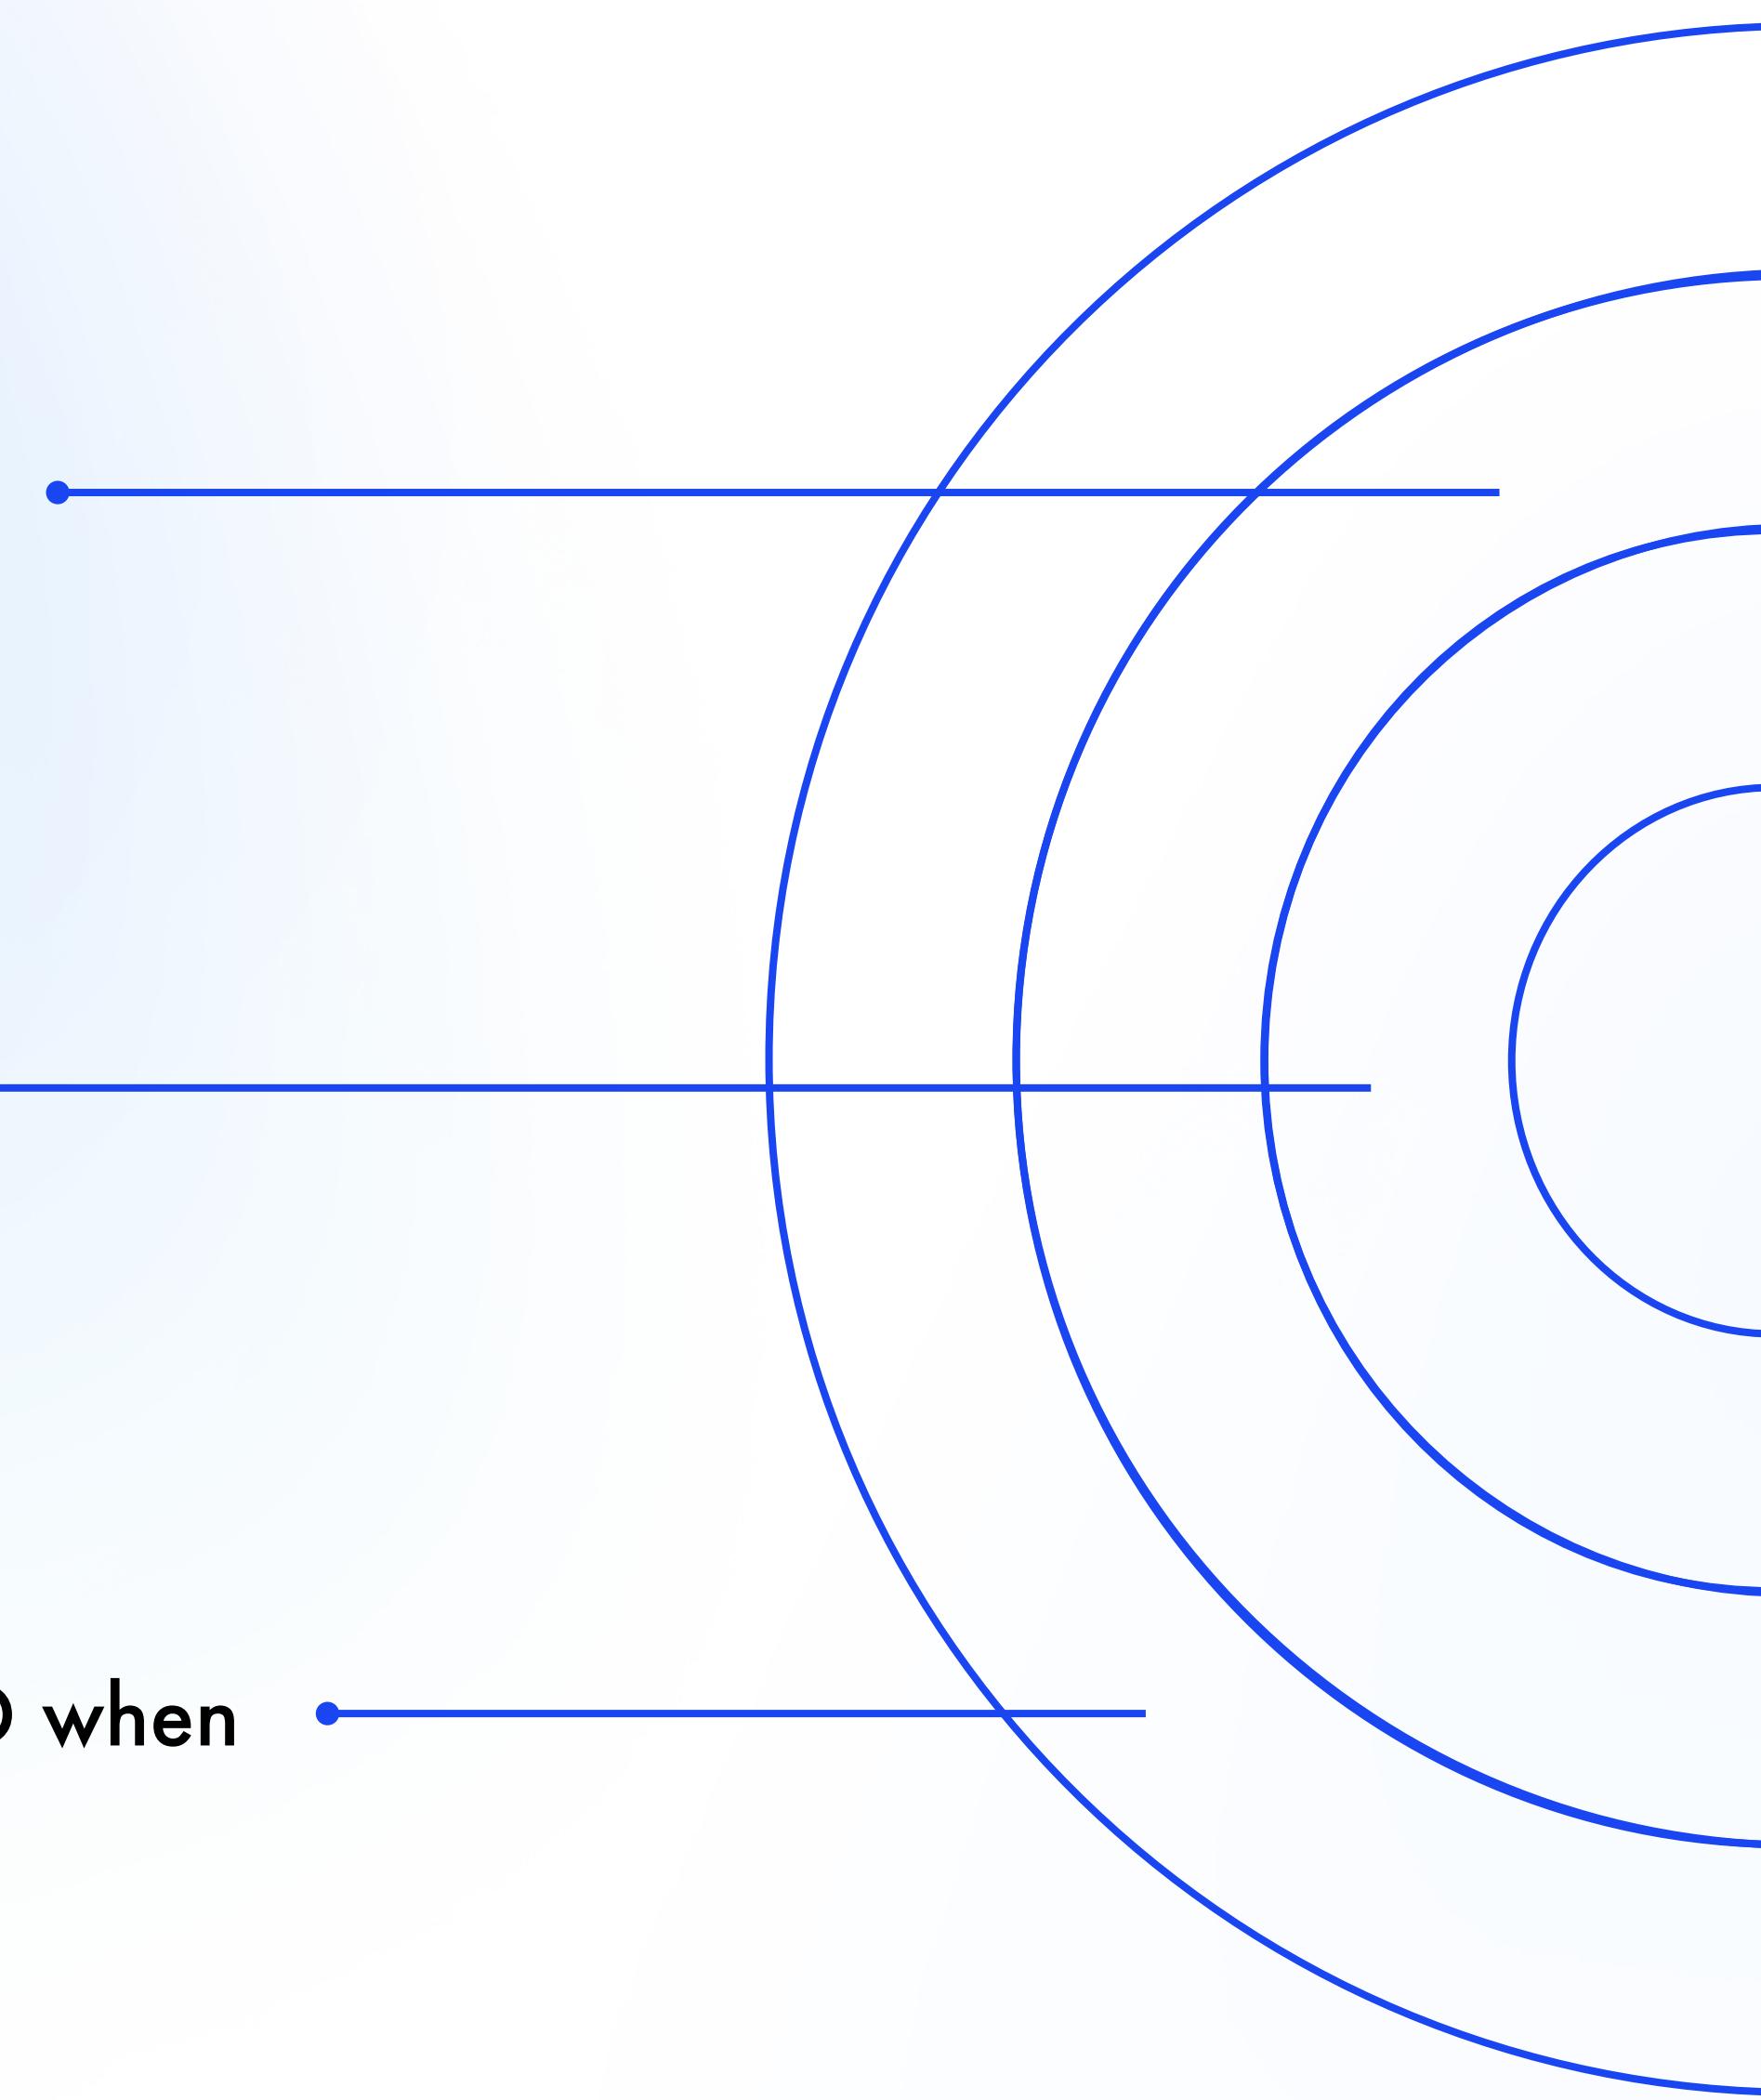

The result is an unbiased, decentralized unit of account called **UNIT (Ø)**.

$$\frac{\sum_{i=0}^n S_i P_{i,0}}{YN} = 1\text{UNIT}$$

The Advantages of UNIT

New Era Needs New Ruler

The Unit preserves value over time and acts as an unbiased ruler—instead of a currency.

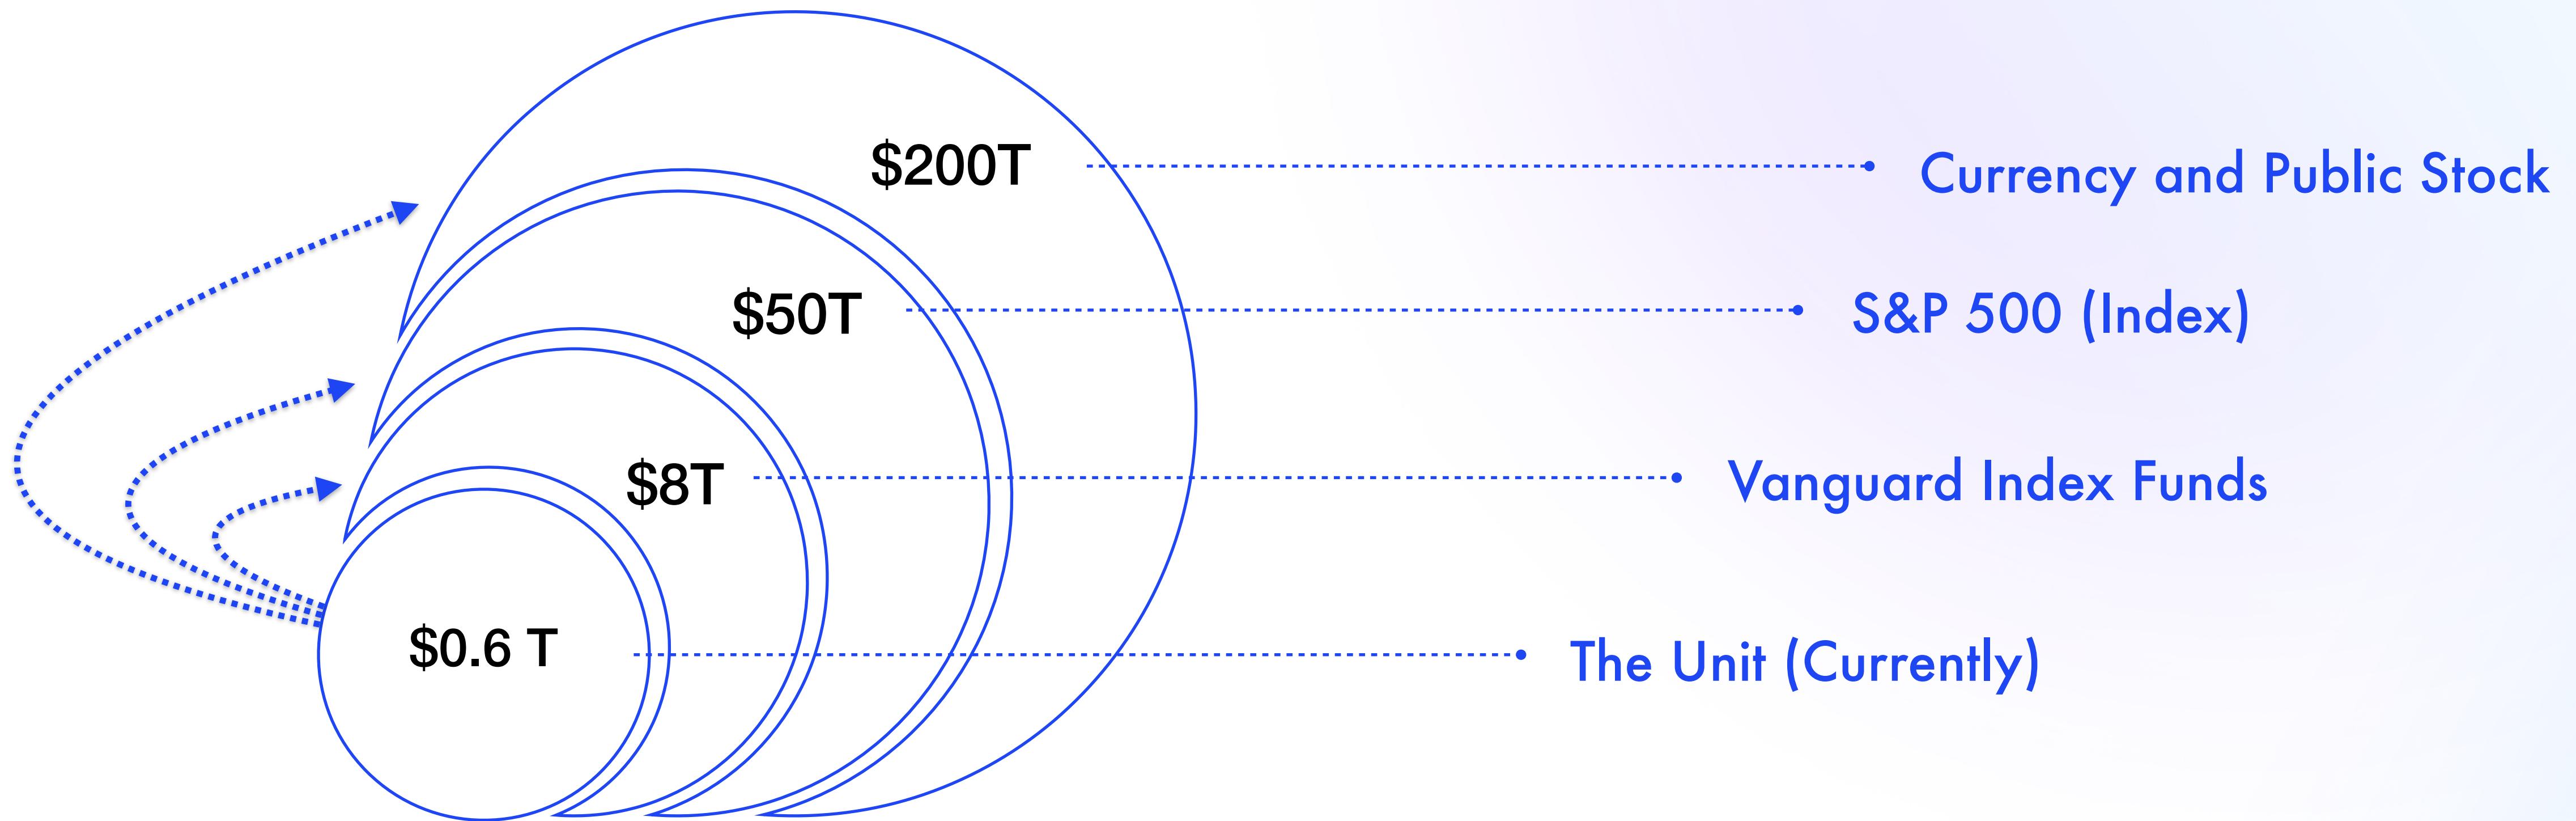

High Performance

Index Funds Perform much better than Actively Managed Funds [Vanguard Study](#). So on average, UNIT will perform better than individual coins.

Low Volatility

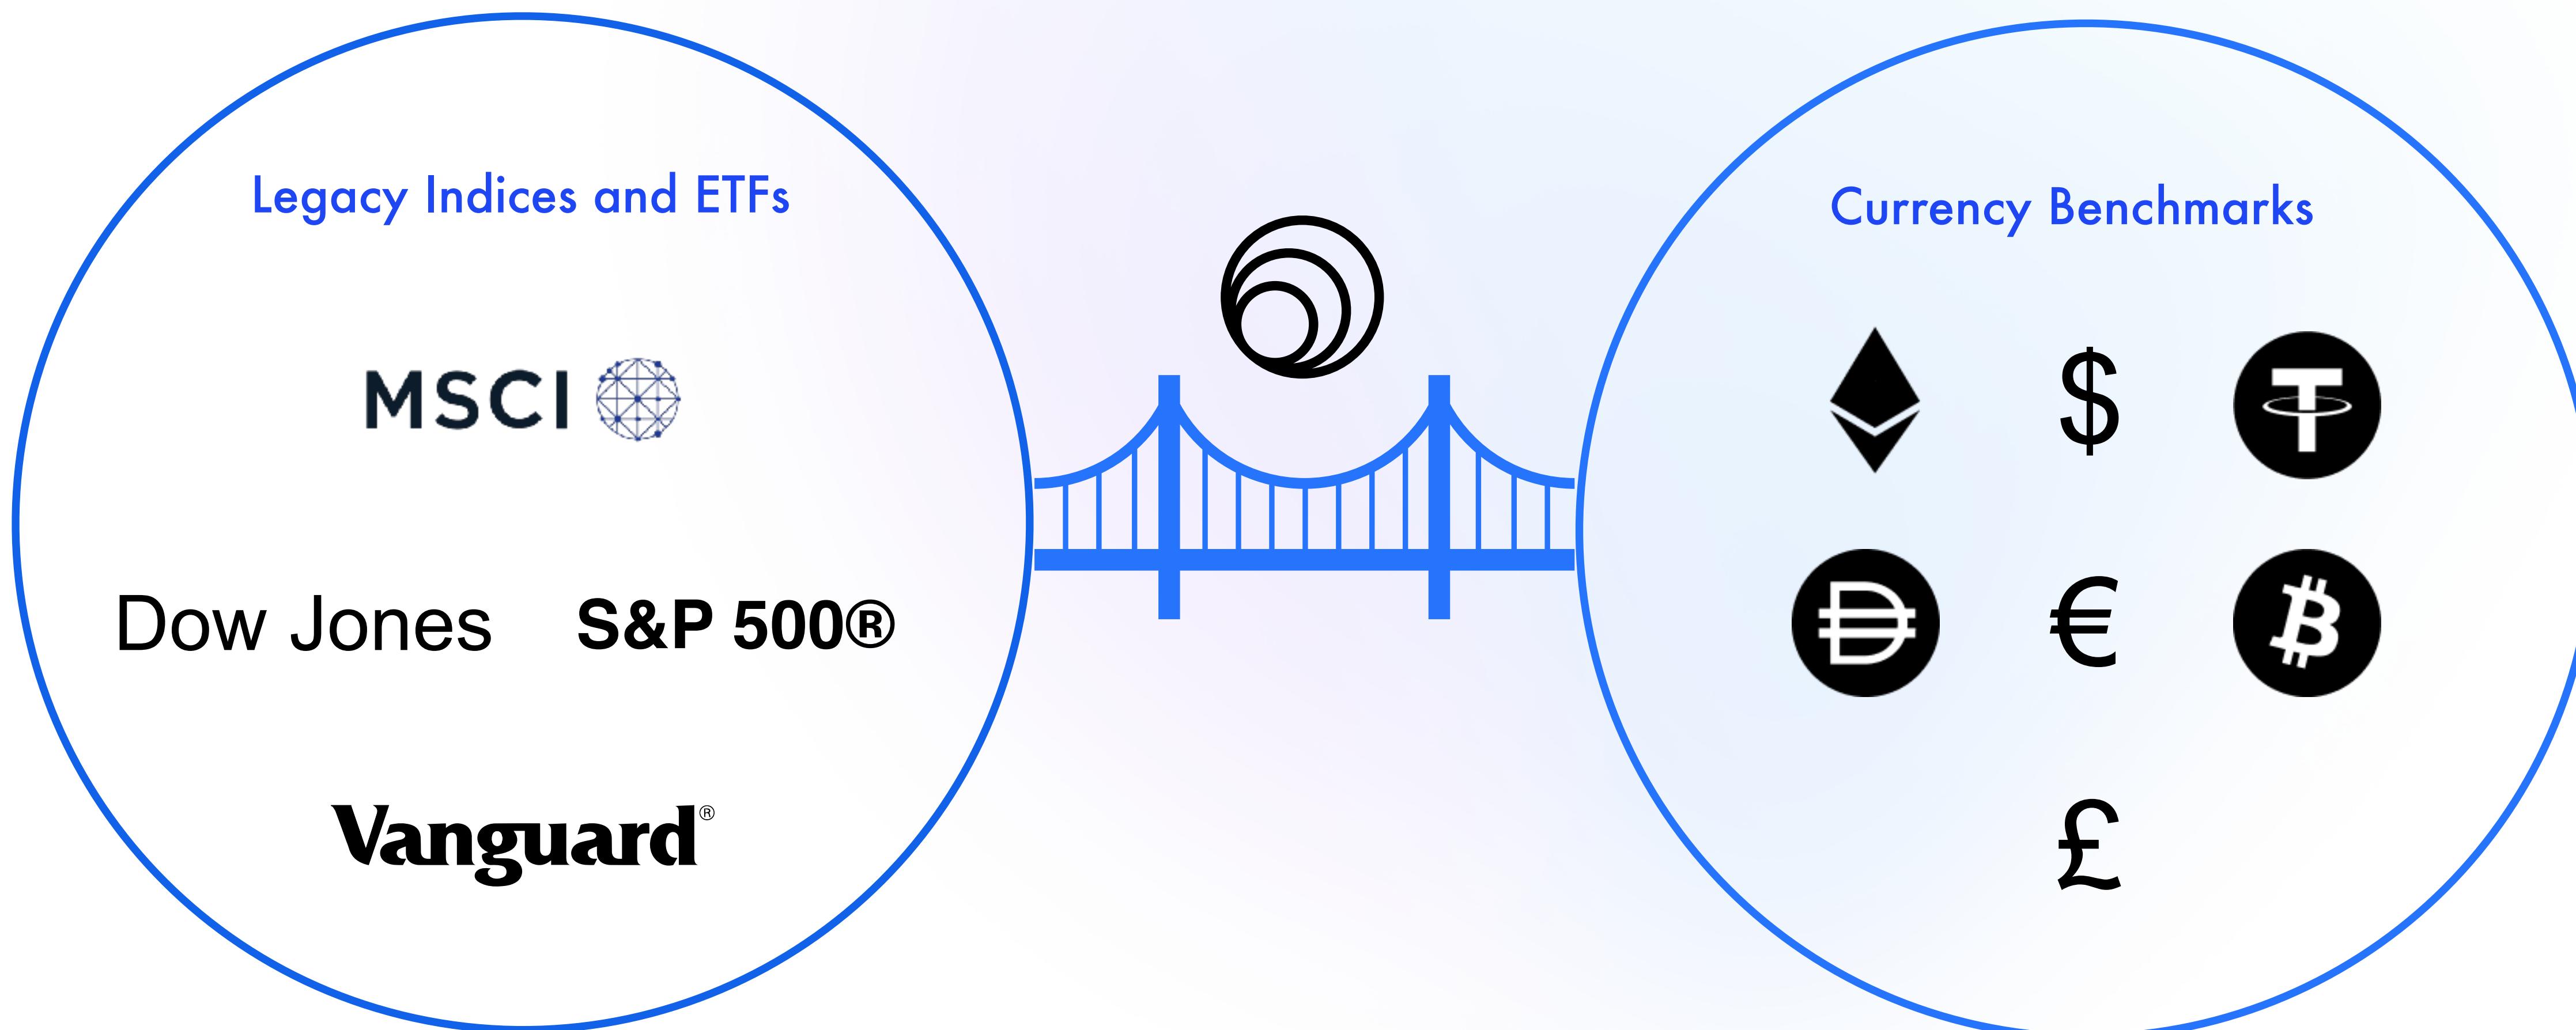

UNIT is 20-50x less volatile than USD when measuring cryptocurrency value

How large can The Unit grow

300 million people in Crypto and growing with **3.9%** of global population

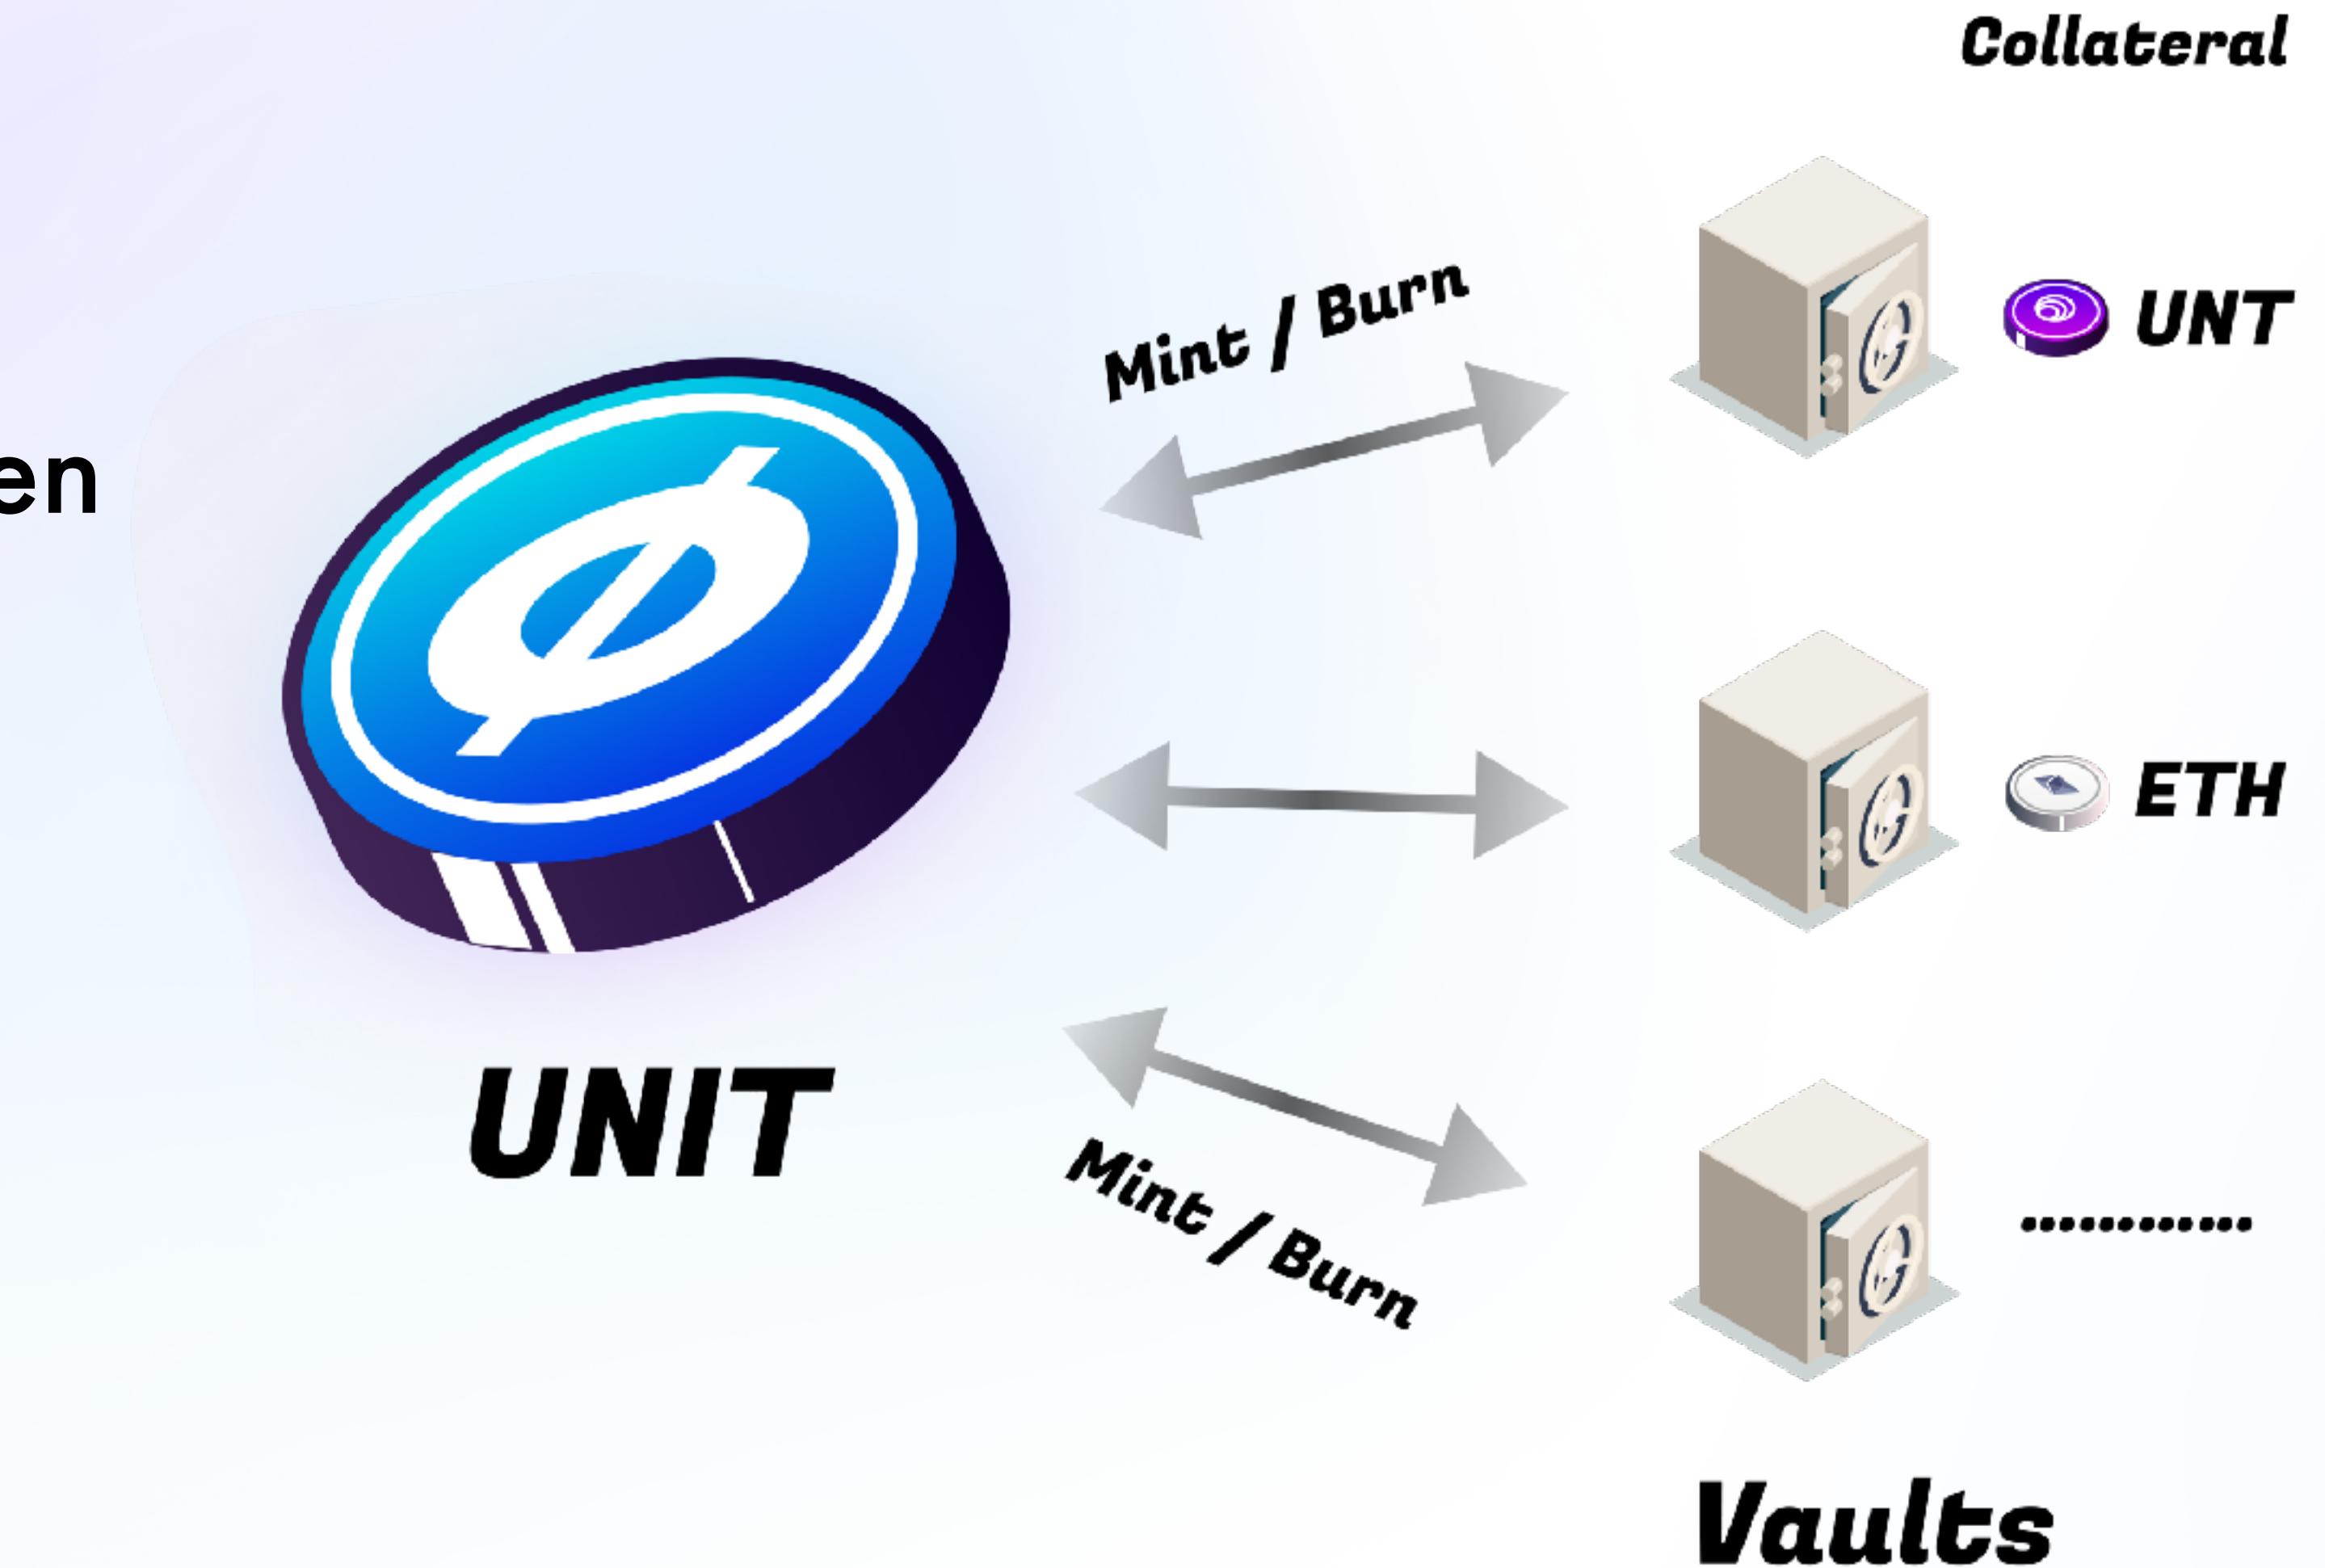

The Unit's Market Position

First-mover advantage bridging currency and index. Index funds held 41% of U.S. mutual fund and ETF assets as of March 2020.

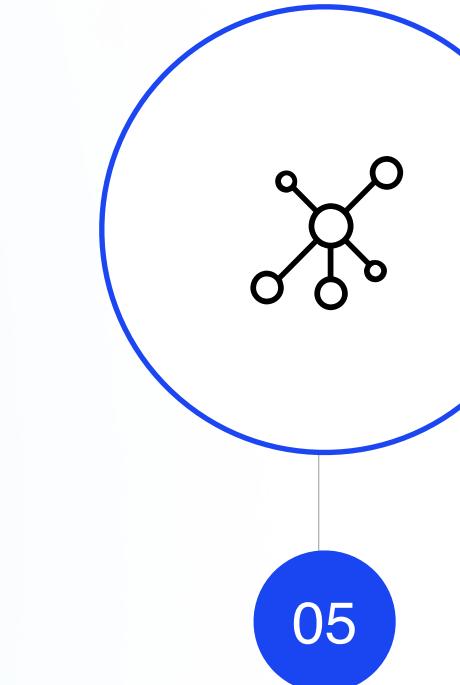

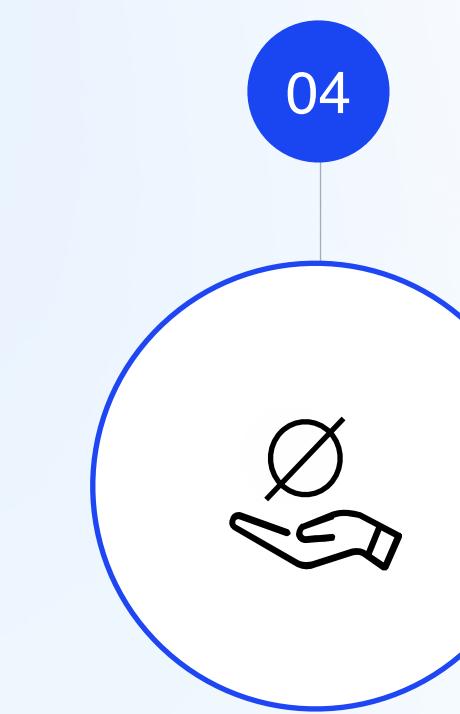

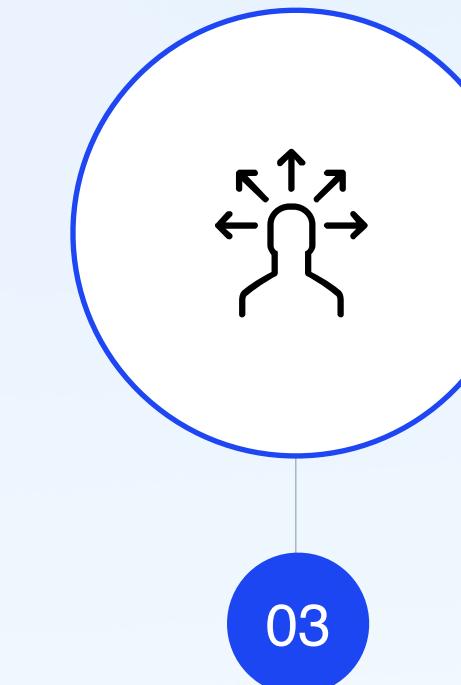

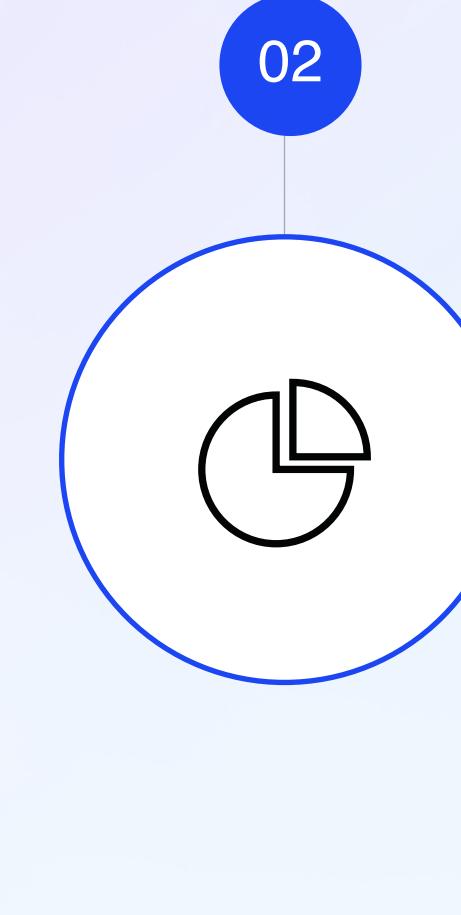

UNIT (Token)

UNIT will be issued when participants deposit collateral into Vaults.

Use Cases

Benchmark the performance of any portfolio or specific coin.

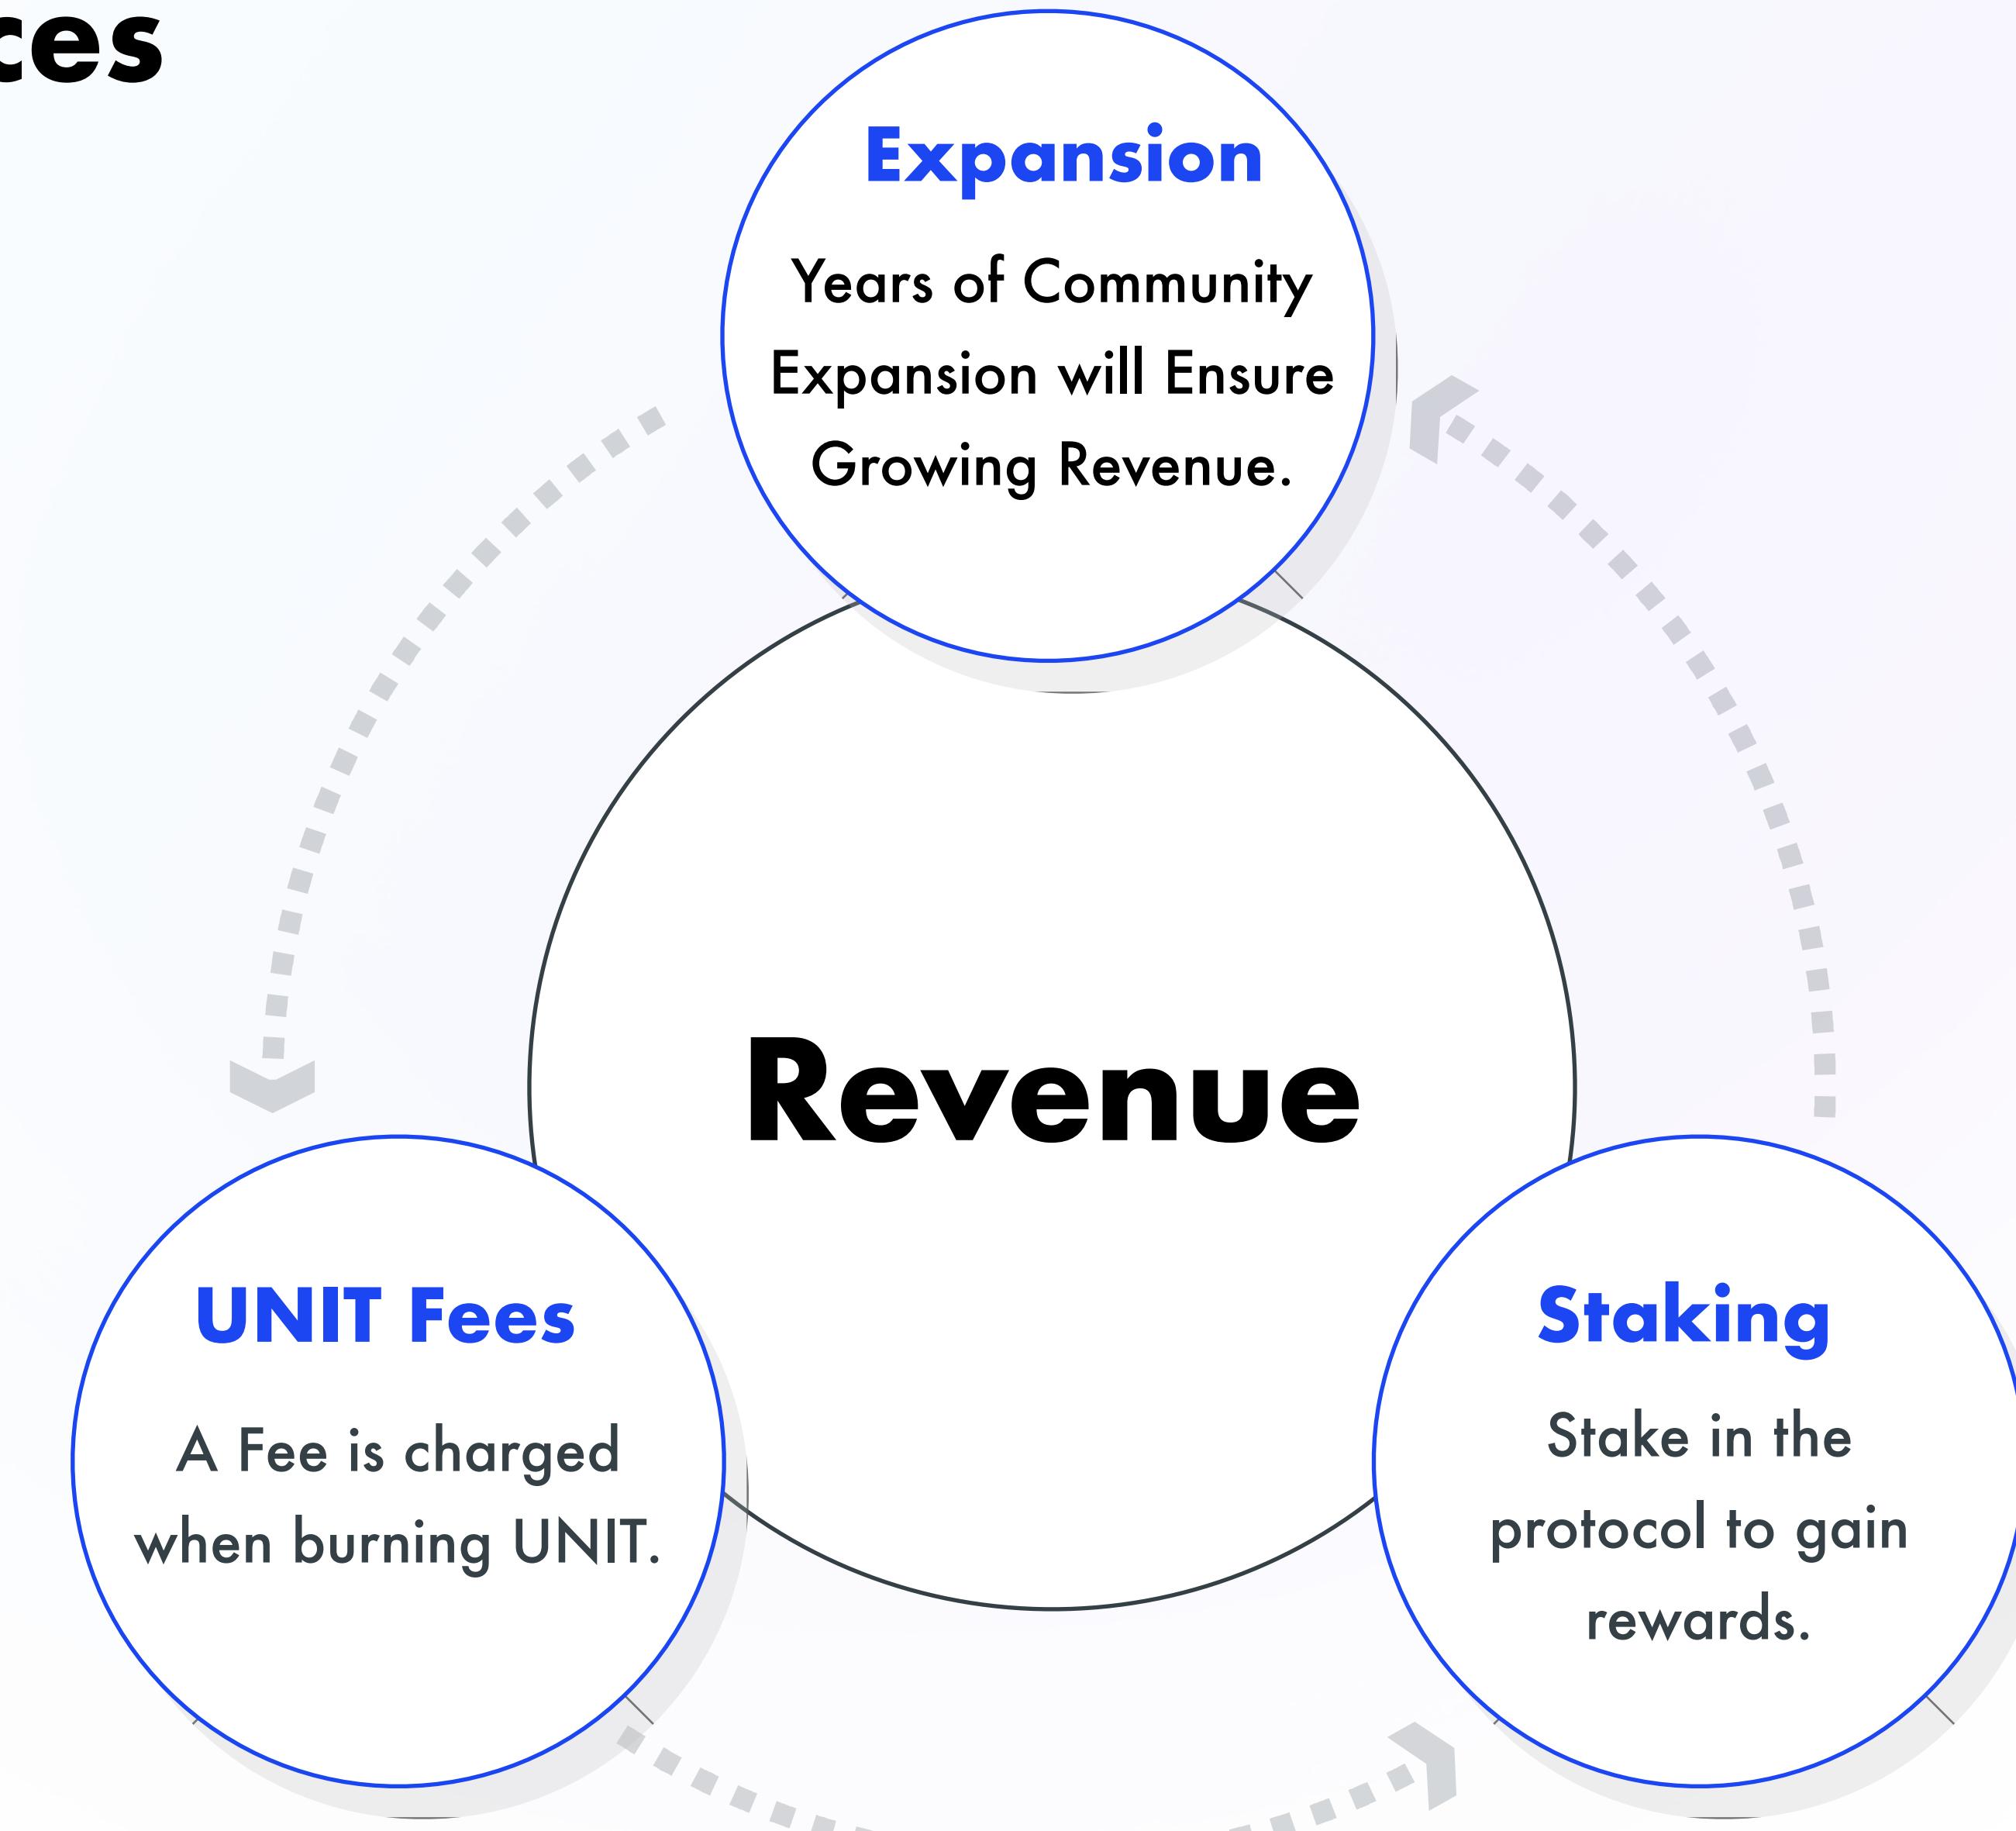

Hold, lend, borrow and stake UNIT to benefit from market instability.

Technical Analysts can use asset prices in Units to track the true value and inform trading decisions.

Long or Short the total market cap using UNIT.

Prepare for the New Era away from centralized USD.

Revenue Sources

Index Prize Pools Increase Engagement

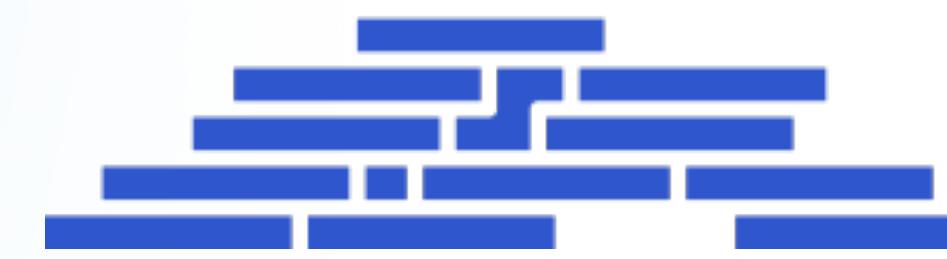

01 Prize Pools

Pools will be placed at equally spaced intervals on the inclusion and exclusion of coins in The Unit. Coin Ranking pools will also be available.

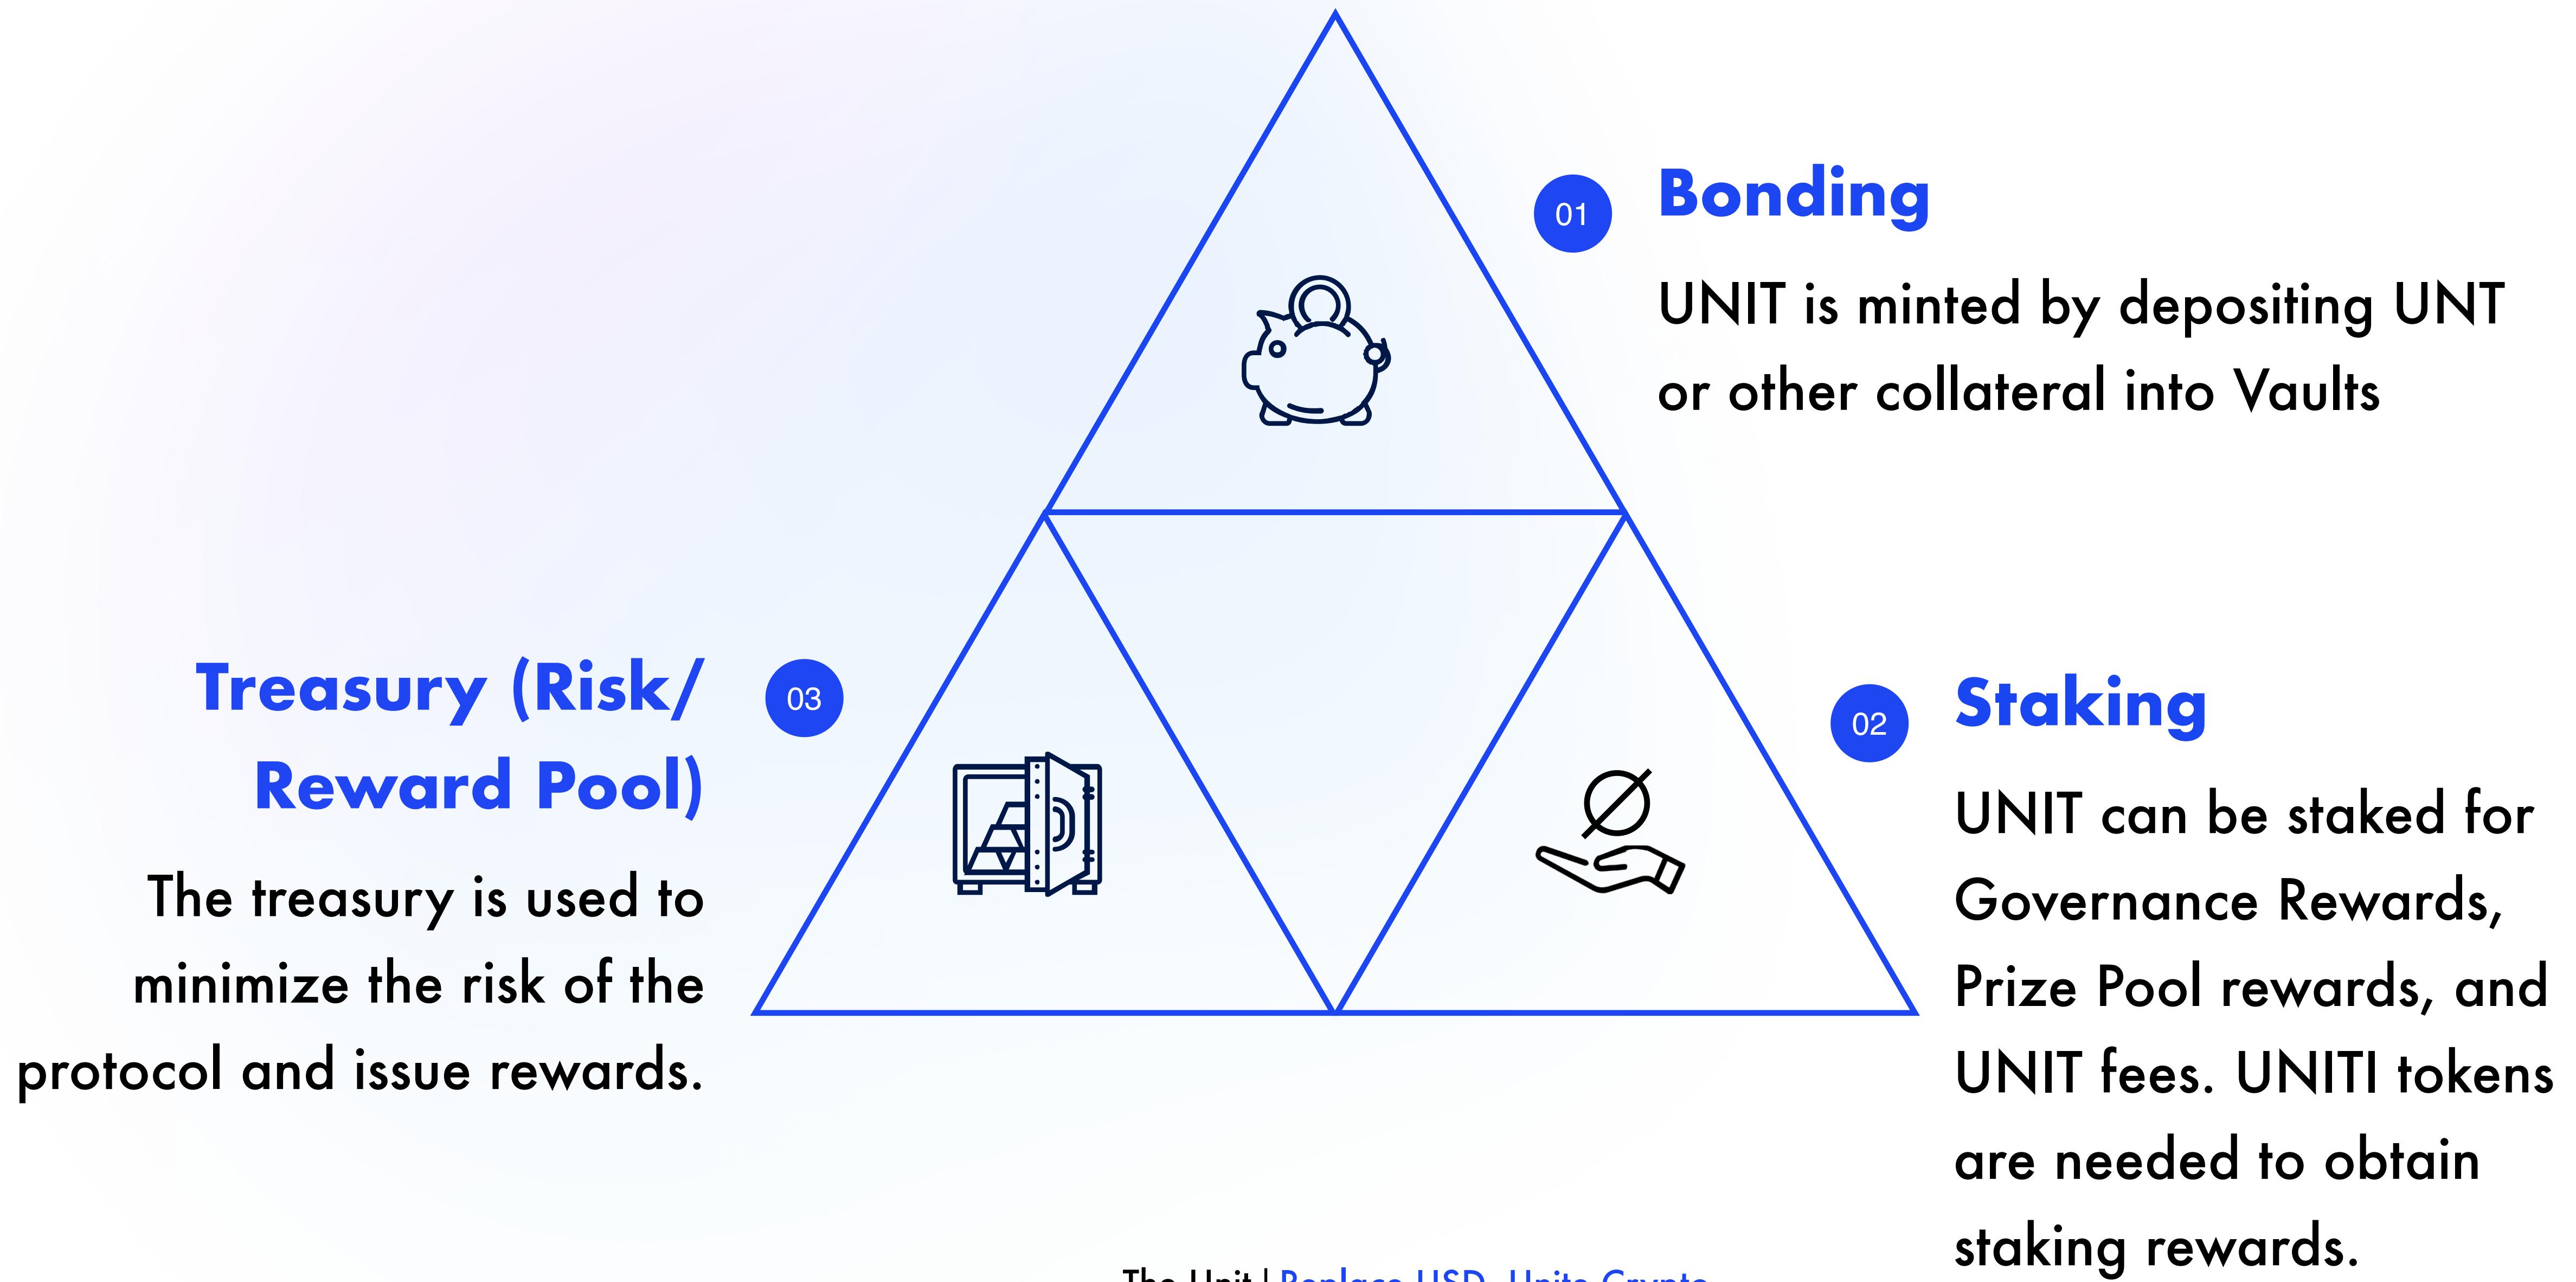

02 Staking

Staking of UNT tokens. Those staking will be able to obtain rewards from the Prize Pool rounds.

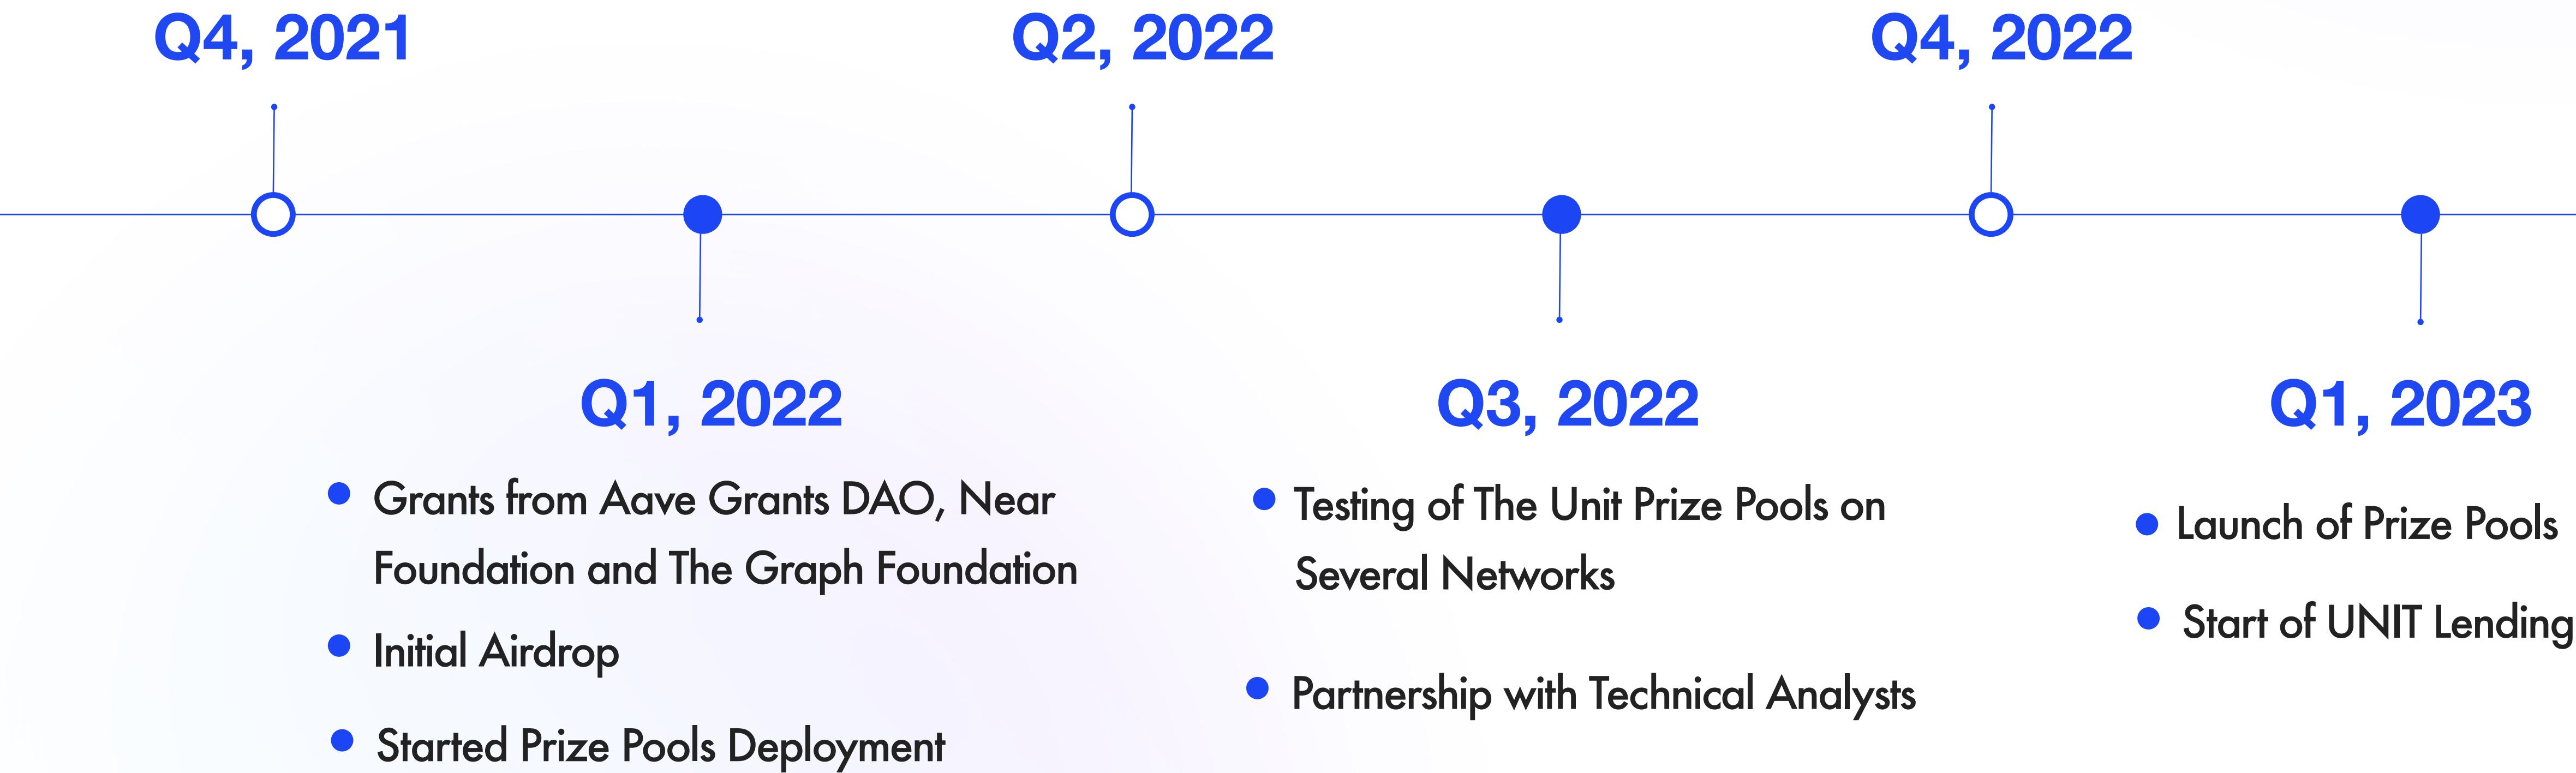

Utility Outside Governance

The Roadmap

- Defi proposals
- Partnerships with The Graph, Chainlink
- Expanding community
